LIPOSOMES HAIR COLOR AND COLOR STRAIGHTLIGHTS

coloring permanent and semi- permanent basis with cream / gel that ensures total coverage of white hair, leaving the hair soft and shiny. Formula Intel B5 system with controlled release of active ingredients. Pleasant smell.

Contains:

- Liposomes : a system for the controlled release of active ingredients.
- Panthenol (Provitamin B5) : gives strength, softness, luster and shine directly into the cortex.
- Creatine : performs a restorative and protective hair giving the same strength and shine.
- The Guar Gum : due to its high power conditioning, further enhances the softness and manageability.
- The Poliquaternari and Ceramides : Anchor exert a pigment, enhancing the conditioning effect of Liposomes making the hair soft, shiny and silky with vibrant colors that last longer over time.
- Pigments with high factor expansive : they make sure that the color lasts over time as they expand significantly within the cortex of the hair. It is formulated in two versions : Standard and Straightlights.

Shades available in 66 shades.

way d ' to use: 1:1.5 dilution. Series 10, 1:2 dilution.

box: 70 ml tube.
